REVIEW REPORT ON COMPLIANCE OF INTERIM OPERATING REPORT

To the Board of Directors of OYAK Çimento Fabrikaları Anonim Şirketi

We have been engaged to perform a review on the compliance of the financial information included in the accompanying interim operating report of OYAK Çimento Fabrikaları Anonim Şirketi (the Company) and its subsidiaries (the Group) as of June 30, 2023, with the interim condensed consolidated financial statements, which we reviewed. Interim operating report is the responsibility of the Group management. Our responsibility as the auditors is to express a conclusion regarding if the financial information included in the accompanying interim operating report is consistent with the the interim condensed consolidated financial statements and explanatory notes, which we reviewed as the subject of the review report dated August 15, 2023.

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the financial information included in the accompanying interim operating report is not consistent, in all material respects, with the information disclosed in the interim condensed consolidated financial statements and explanatory notes, which we reviewed.

Central Anatolia

According to Türk Çimento's data for may 2023, domestic sales increased by 16,74% in Türkiye and 29,79% in the Central Anatolia Region compared to the same period last year. Exports decreased by 16,89% in Türkiye, while a decrease of 54,44% was observed in our region. According to the may 2023 data of Turkish Cement, 4.709.357 tons of clinker and 4.542.729 tons of cement were produced in our region.

Southeastern Anatolia

According to Türk Çimento's data for may 2023, domestic sales increased by 16,74% in Türkiye and an increase of 9,66% in Southeast Anatolia compared to the same period last year. Exports decreased by 16,89% in Türkiye, decreased by 10,73% was observed in our region. According to Türk Çimento's data for may 2023 1.642.816 tons of clinker and 1.926.973 tons of cement were produced in our region.

9. Incentives

The Company benefits from the Social Insurance Invalidity and Old Age Incentive No. 5510, disability incentive included in the quota subject to Law No. 5510 within the scope of the art. 30 of the Labor Law No. 4857, government incentive for students going through supplemental education per Professional Education Law No. 3308, Minimum Wage incentive No. 6661 and Additional Employment Incentive No. 6111 and as of April 2023, 15510 Social Security Support Premium Employer's Share is from the five-point law incentive.

Ünye Cement Branch; For the Waste Derived Fuel investment, an investment incentive certificate dated July 28, 2016 was obtained. Within the scope of the investment incentive certificate, the rate of contribution to the investment with additional contributions is 55% and a 100% deduction is made from the tax base. In this context, Ünye Cement Branch has deducted from the tax base a total investment deduction of TL 14,387,745 from the total investment amount of TL 26,615,160 on the investment incentive certificate as of December 31, 2022 until December 31, 2022 within the scope of the Regional Investment Incentive Certificate (31.12.2021: TL 12,773,486). As of the first six months of 2023, this discount could not be benefited due to the negative investment gain. By making a revaluation, there is a contribution amount of TL 5,456,798 to the investment that can be used for future periods.

Aslan Cement Branch; For the modernization of the clinker production line and the provision of energy efficiency, the investment incentive certificate numbered 502785 was received on May 21,

**BOARD OF DIRECTORS' INTERIM ACTIVITY REPORT
PREPARED IN ACCORDANCE WITH COMMUNIQUE NO. II-14.1**

2019 and the related investment was completed as of September 30, 2020. The actual investment expenditure realized since the beginning of the investment is TL 117,995,483. The amount of contribution to the investment benefited in the first six months of 2023 due to the gain from the investment is TL 11,751,801 (31.12.2022 TL 15,253,815, 31 December 2021 TL 7,248,213, December 31, 2020 TL 2,515,320). An incentive closure application was made in 2022.

Marmara Island Marble Quarry Investment; The Company has received an investment incentive certificate No. 535527 dated April 15, 2022 regarding the marble quarry operation to be carried out at Çınarlı Mah. Bedalan Mevkii Küme Evleri No:15B Marmara/Balıkesir. The contribution rate to the investment is 40% and the tax reduction rate is 80%. Within the scope of the document, the total investment amount is TL 60,679,000 and the total amount of contribution to the investment is TL 24,271,600. The amount of contribution to the investment benefited in the first six months of 2023 is TL 8,279,780 (31 December 2022 11.137.500 TL, 31 December 2021 0 TL).

10. Development of the Enterprise

The first concrete export by OYAK Çimento Fabrikaları A.Ş., which has started its activities on September 8, 1975, (Former Commercial Title: Mardin Çimento Sanayii ve Tic. A.Ş.) has been made to Middle East countries, in 1975. OYAK Çimento, with its strong and reliable reputation acquired in domestic and export markets, is a reason for choice in all around Türkiye.

Taking into consideration the strategic plans and the synergy to be achieved regarding the targets in the cement industry, on 13/12/2019, it has been decided to start the negotiations with the intention to carry out the merger of OYAK Çimento Fabrikaları A.Ş. (Former Commercial Title: Mardin Çimento Sanayii ve Tic. A.Ş.) and Adana Çimento Sanayii T.A.Ş., Aslan Çimento A.Ş., Bolu Çimento Sanayi A.Ş., and Ünye Çimento Sanayi ve Ticaret A.Ş.

The "Announcement Text" on the merger was approved by the decision of the Capital Markets Board dated 20/02/2020 and submitted to the approval of the shareholders in the Extraordinary General Meeting held on 27/03/2020. In the Extraordinary General Assembly, the merger was approved. The merger has been registered at the Mardin Trade Registry Office on 14/05/2020.

The registration, at the Ankara Trade Registry Office, of the merger of OYAK Beton Sanayi ve Ticaret A.Ş., a subsidiary of our Company at the percentage of 100%, registered at the Ankara Trade Registry Office with the registration number 195300, in the midst of our Company, by "acquisition" via the application of the method of "Facilitated Merger Procedure", as a whole with all its assets and liabilities, is completed as of 31/12/2020.

In the Board Meeting dated 14/07/2023; Considering the synergy to be created in line with the strategic plans of our company and our targets in the cement sector; Our company and OYAK Denizli Cement A.Ş. between, the Capital Markets Law No. 6362, the Merger and Demerger Communiqué Series: II, N 23.2 of the Capital Markets Board, the Common Principles and the Right of Separation Communiqué Serial: II, N 23.3, Turkish Commercial Code No. 6102 It has been decided to start negotiations with the intention of merger within our company the framework of the Corporate Tax Law No. 5520 and the provisions of other relevant legislation.

OYAK Çimento, which continues its activities in a wide area as the capacity and market leader of the Turkish cement industry, is a leading community that develops areas of use of cement with the principles of efficiency, creativity and profit-orientation, playing an active role in the country's market.

**BOARD OF DIRECTORS' INTERIM ACTIVITY REPORT
PREPARED IN ACCORDANCE WITH COMMUNIQUE NO. II-14.1**

OYAK Çimento Fabrikaları A.Ş., which adopted as its vision to be a respected, leading and reliable company, developing areas of use of cement and playing an active role in global markets, endeavors to increase sales volumes both at home and abroad.

11. Units of the Enterprise

The capacities of the branches and facilities of our Company are summarized in the table below.

PLACES OF ACTIVITY	AREAS OF ACTIVITY OF THE FACILITY	Cement Production Capacity (Ton / Year)	Clinker Production Capacity (Ton/Year)	Grinding Capacity (Ton / Year)	Cement Stocking Capacity (Ton / Year)	Concrete Production Capacity (m3 / year)	Aggregate Production Capacity (Ton / Year)
Adana Cement Branch	Cement-clinker production and sales	3.5 million	3 million				
Iskenderun Facility-I	Cement-Ground Slag and Sale			1 million			
Iskenderun Facility-II	Cement-Ground Slag and Sale			1 million			
Turkish Republic of Northern Cyprus Facilities	Stocking and sales				8 thousand		
Bolu Cement Branch	Cement-clinker production and sales	2.5 million	1.45 million				
Ereğli Branch	Cement and Ground Slag and Sale			1 million			
Ankara Branch	Cement-clinker production and sales	1.7 million	1.3 million				
Aslan Cement Branch	Cement-clinker production and sales	3.3 million	1.8 million				
Ünye Cement Branch	Cement-clinker production and sales	2.6 million	1.56 million				
Rize/ Çayeli Branch	Cement Filling and Packaging Facility				21 thousand		
Romania Facility	Cement Filling and Packaging Facility				8 thousand		
Mardin Cement Branch	Cement-clinker production and sales	2.7 million	1.85 million				
Ready Mixed Concrete Facilities (Adana, Hatay, Kıbrıs, Bolu, Zonguldak, Kocaeli, Ordu, Rize, Mardin, Osmaniye, Gaziantep, Kahramanmaraş, Mersin, İstanbul, Samsun, İzmir, Ankara, Aydın, Denizli, Afyon, Manisa, Romanya)	Ready Mixed Concrete Production and Sales					11,5 million	
Aggregate Production Facilities (Ayaş, Çerkeşli Cendere)	Aggregate Production Facility						5,2 million

12. Products

The product range of OYAK Çimento Fabrikaları includes the following types of cement. Portland Cement is used in construction projects that require high strength but do not require special attention to hydration heat and sulfate effect. Portland Composite Cement is used in general-purpose construction projects where blended cement is used and which require higher strength. Pozzolan Cement is used in concrete exposed to sea water and groundwater, industrial floors affected by sulfate, mass concrete where low hydration heat is required. Blast Furnace Slag Cement is used in concrete exposed to sea water and groundwater, industrial floors affected by sulfate, general purpose construction, mass concrete where low hydration heat is required. Sulfate-resistant cement types are used in construction projects in areas affected by sulphated fields and sea water, in underwater construction projects, construction projects for bridges, dams and port foundations, in construction projects for retaining walls API Well Cement has been used in oil drilling wells and geothermal power plants with its high sulfate resistance (HSR), strength under high temperature and pressure, and workability. White cement can be used wherever grey cement is used. Their distinctive basic characteristics are that they have white color, aesthetic and decorative properties, and their strength gains are high. Ground Blast Furnace Slag is used as a secondary binder in concrete production. The product information of our company is listed below;

**BOARD OF DIRECTORS' INTERIM ACTIVITY REPORT
PREPARED IN ACCORDANCE WITH COMMUNIQUE NO. II-14.1**

Along with the production of all kinds of standard concrete of every class and type within the product range of ready-mixed concrete, OYAK Çimento Fabrikaları A.Ş. has a special and wide product range, developed by long term R&D efforts, whose trademarks are registered, every single one of which serves a different purpose, with a content and richness that may respond to every special need.

Brand	Product Name	Explanation
DURABET®	Concrete with High Durability	It is a special product with high durability that is resistant to severe environmental effects, with low water and chlorine permeability, minimized crack risk, and heat development control.
SMARTBET®	Self-Settling Concrete	It is a self-settling special product designed for building elements with narrow-sections and thick fittings, that may be easily placed and finished.
AQUABET®	Concrete with Reduced Water Permeability	It is a special product with reduced water permeability designed for any environment exposed to water and moisture.
SKYBET®	Concrete Pumped to High Floors	It is a special product with high consistency protection and high strength that can be easily transferred over very long distances in multi-story office and residential buildings, vertically and horizontally.
İZOBET®	Insulating Concrete	It is a special product designed for building elements where heat and sound insulation are needed.
FIBRABET®	Fiber Concrete	It is a special steel and polypropylene fiber reinforced product with high bending and impact resistance, and a reduced risk of premature cracks.
FIBROSHOT®	Fiber Shotcrete	It is a special shotcrete product that is fast, practical and fiber-reinforced, used in manufacturing of tunnel and slope etc.
WHITEBET®	White Concrete	It is a special product manufactured by the use of special white cement and light colored raw materials for construction elements with aesthetic and decorative features.
REPABET®	Micro-fiber Repair Concrete	It is a special fiber reinforced product that settles quickly and that can be used in the repair of factory floor concrete, road, apron and runway concrete subject to heavy traffic, with a low risk of cracks, high early and final strength.
VIABET®	Sliding Formwork Concrete	It is a special product designed in accordance with the working principle of sliding formwork systems in viaduct concretes.
POROZBET®	Permeable Concrete	It is a special product designed for areas such as parks, gardens, parking lots etc., with increased permeability.
DUALBET®	Road Concrete	It is a special road concrete that can be compressed with a cylinder and/or dumped with a paver.
DOZBET®	Dose Concrete	It is a special product designed based on a binding rate determined according to customer demand.
FLEKS BET®	Fixed and Flex Line Concrete	It is a special product designed according to customer demand, which can be conveniently pumped over long distances with fixed or flex hoses.

13. Developments Regarding Sales

While the Company continues its activities by targeting sustainable profitability, new investments are being pursued domestically in 2023. Regarding exports, new sales markets are being explored.

F- Risks and Assessment of the Board of Directors

1. Risk management policy

The Company manages the risks by identifying the risks that may endanger its existence, development and continuation and taking the necessary measures related to the identified risks. In this context, the Company established the Early Risk Detection Committee.

2. Early Risk Detection Committee

The Company established this committee on 25/07/2012 and the committee consists of 2 members. The committee has met routinely from the date of its establishment to the date of the report, for the purpose of early diagnosis of reasons that endanger the existence and development of the Company and the implementation of the necessary measures and remedies for this and risk management, and submitted the reports it has prepared to the Board of Directors. Guidelines of the committee are available at the Company's website www.OYAKcimento.com.

3. Future Risks

In accordance with our awareness and priorities for social responsibility, our Company monitors future risks in order to maintain its activities in accordance with its goals regarding occupational health and safety, environmental sensitivity, regular optimization of its costs and to offer innovative products to our customers. All factors that may negatively affect our domestic and export sales quantity and prices are monitored.

There are also ready-mixed concrete facilities owned by our Company.

2. Information about Changes in Legislation that can Significantly Affect the Company's Activities

There are no changes in legislation that can significantly affect the Company's activities.

3. Information about Conflicts of Interest Between the Organizations from which the Company Procures Services on Issues such as Investment Advice and Rating, as well as Measures Taken by the Company to Prevent these Conflicts of Interest

There are none.

**BOARD OF DIRECTORS' INTERIM ACTIVITY REPORT
PREPARED IN ACCORDANCE WITH COMMUNIQUE NO. II-14.1**

4. Information about Employees' Social Rights, Vocational Training and Other Activities of the Company which Have Social and Environmental Consequences

The company provides employees with health and life insurance. At the same time, to increase the skills of workers, the company organizes training both in business competency and social skills.

The company takes all necessary precautions by evaluating the possible environmental effects and dimensions of ongoing investments at the project stage. Environmental impact assessment reports have been prepared for each factory and project-specific to the company's activities, within this scope, EIA Positive Certificate and/or EIA Not Required documents prepared. Each factory has "Environmental Permit and License Documents" valid for Wastewater Discharge, Air Emission, Noise and Waste Incineration, and Co-incineration. The company takes action by monitoring all kinds of risks and environmental aspects for the protection, improvement of the environment, human health, safety, and to ascend the quality level by increasing the effectiveness of the "Integrated Management System", to create a healthy and safe work environment with environmental awareness, to comply with their wishes and tastes. The company aims to maintain customer satisfaction by offering products and services.

The company aims to improve quality, environmental awareness, occupational health, safety culture, reduce occupational accidents, create a healthy, safe working environment, reduce natural resource use and increase productivity. It has established an "Integrated Management System" that meets the requirements of ISO 9001 "Quality Management System", ISO 14001 "Environmental Management System", ISO 50001 "Energy Management System", ISO 45001 "Occupational Health and Safety Management System" and documented every factory.

The company updated its work on reflecting its economic, social, and environmental impacts on its management strategy by prioritizing it within the scope of sustainability in 2022, and published 2022 Integrated report, which shows both financial information and sustainability performances in the most holistic, effective and comprehensive way, on 07 June 2023. At the same time, the company completed the work on establishing a "Sustainability Board" and a "Sustainability Committee" achieved its mission on determining the sustainability strategies and prepared the 2022-2025 Sustainability Strategies Report in this direction.

The company became the first cement company in Türkiye to make the "Net-Zero" commitment, which brings together the criteria that global companies need to set science-based targets to limit the global temperature increase to 1.5°C until 2030. The company continues to carry out pioneering activities in the sector by being among the business and financial institutions working with the Science-Based Targets Initiative (SBTi) to reduce its emissions in line with climate risks.

5. Mandatory information to be provided to shareholders on related party transactions and balances
