REVIEW REPORT ON COMPLIANCE OF INTERIM OPERATING REPORT

To the Board of Directors of OYAK Çimento Fabrikaları Anonim Şirketi

We have been engaged to perform a review on the compliance of the financial information included in the accompanying interim operating report of OYAK Çimento Fabrikaları Anonim Şirketi ("the Company") and its subsidiaries ("the Group") as of June 30, 2024, with the interim condensed consolidated financial statements, which we reviewed. Interim operating report is the responsibility of the Group management. Our responsibility as the auditors is to express a conclusion regarding if the financial information included in the accompanying interim operating report is consistent with the the interim condensed consolidated financial statements and explanatory notes, which we reviewed as the subject of the review report dated September 3, 2024.

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the financial information included in the accompanying interim operating report is not consistent, in all material respects, with the information disclosed in the interim condensed consolidated financial statements and explanatory notes, which we reviewed.

Güney Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik Anonim Şirketi

(*) TMS 29 effective amount.

D- Activities and Important Developments Related to Activities

1. Investment Activities

OYAK Çimento, which carries out pioneering activities in its sector in order to contribute to a sustainable world, continues its work without slowing down in accordance with the 2050 road map it has prepared focusing on risks related to climate change, in today's world where the transition to a carbon neutral world is planned through energy transformations. In this context, OYAK Çimento, the first cement company in Turkey to make the "Net-Zero" commitment, which brings together the criteria needed by companies to determine science-based targets to limit the global temperature increase to 1.5°C, will be implemented within 2023. Its "Net-Zero" commitment has been registered by the Science Based Targets Initiative (SBTi). Thus, OYAK Çimento has once again demonstrated its difference in the sector with its value-oriented business model in the light of R&D and innovation studies. OYAK Çimento has declared that it will reduce its carbon emissions in 2021 by 22.8% by 2030.

Determining its direction in the field of sustainability in order to contribute to Turkey's 2053 net zero target, OYAK Çimento aims to reduce energy costs, move waste feeding systems to more advanced levels, establish waste heat recovery facilities and establish more environmentally friendly units within the scope of environmental responsibility. It has designed projects that will take it further in the future by significantly increasing the rate of alternative fuel use.

OYAK Çimento continues its efforts to recover energy from waste heat and establish solar power plants with an installed power of over 210 MW to be used in domestic consumption at various locations. With these investments, it is aimed to increase the use of renewable energy at OYAK Çimento to over 45%.

With the creative and innovative digital solutions offered thanks to OYAK Çimento 4.0, the first digital transformation project for the cement industry, industrial digitalization, energy efficiency and quality increase have been achieved for sustainable operation.

2. Internal control system and internal audit activities

In order to increase the effectiveness and efficiency of the internal control system, the Company regularly monitors periodic measurements, preventive maintenance practices, specific energy monitoring reports, daily production tracking tables, monthly activity reports and takes instant measures against elements that may affect the Company's productivity. In addition, a management system is implemented with targets and committee activities are carried out.

There is an internal audit unit within the cement and concrete group. The company carries out the scope of the internal control system through the activities and reports of the Audit Committee. We established the Early Detection of Risk Committee on 25/07/2012. Consisting of a total of 2 members, starting from the comprehensive reporting stage, the company's formations, developments, early diagnosis of the reasons for decline, necessary precautions for this, follow-up of maintenance and risk maintenance are collected and these systematic reports are presented to the Board of Directors. The managements of the committees are available on the company's website www.oyakcimento.com.

There are 56 active integrated facilities and 19 grinding - packaging facilities belonging to 32 groups and manufacturers throughout Turkey. According to Turkish Cement data for 2023, Türkiye's clinker production capacity is 97.348.930 tons and cement production capacity is 148.241.669 tons. (*) Turkey ranks third after China and India with this capacity.

When Turkish Cement data of May 2024 is evaluated as basis; Cement production is 34.157.672 tons. Total sales; 28.174.328 tons of domestic sales; It was realized as 5.670.375 tons of foreign sales. Also in this period, clinker foreign sales were 1.910.213 tons. There is excess capacity in Turkey and export has become mandatory. Despite this excess capacity, cement factory investments continue in different regions of Turkey.

According to Turkish Cement data at the end of May 2024, there was an increase of 17,08% in cement production compared to the same period of the previous year. Approximately 16,60% of the cement produced in this period went to export. Again, during this period, there was a 26,04% increase in domestic sales and a 10,53% decrease in exports.

According to Turkish Cement May 2024 data, regional domestic cement sales increased in all regions, while exports decreased in all regions except the Aegean, Black Sea and Eastern Anatolia regions.

*Türkiye-wide and regional production, domestic and foreign sales data covers factories that are members of Türk Çimento.
(*) Based on Cemnet 2022 data .*

8. Position of the Enterprise in the Industry

According to Türk Çimento's cumulative data for May 2024;

In exports, while there was a 10,53% decrease in Turkey, there was an 10,29% decrease in our region. In the same period, 8.517.753 tons of clinker and 8.956.993 tons of cement were produced.

Black Sea

Domestic sales increased by 26,04% in Turkey and 33,15% in the Black Sea Region compared to the same period last year. As for exports, while there was a 10,53% decrease in Turkey, there was a 12,40% increase in our region. In the same period, 2.690.312 tons of clinker and 3.190.563 tons of cement were produced.

Central Anatolia

Domestic sales increased by 26,04% in Turkey and 14,67% in the Central Anatolia Region compared to the same period last year. While there was a 10,53% decrease in exports in Turkey, there was a 29,58% decrease in our region. In the same period, 4.899.468 tons of clinker and 5.220.560 tons of cement were produced.

Eastern Anatolia

Domestic sales increased by 26,04% in Turkey and 59,61% in the Eastern Anatolia Region compared to the same period last year. As for exports, there was a 10,53% decrease in Turkey and a 0,70% increase in our region. In the same period, 1.868.008 tons of clinker and 2.070.024 tons of cement were produced.

Southeastern Anatolia

Domestic sales increased by 26,04% in Turkey and 73,67% in the Southeastern Anatolia Region compared to the same period last year. As for exports, there was a 10,53% decrease in Turkey and a 47,99% decrease in our region. In the same period, 2.580.709 tons of clinker and 2.985.638 tons of cement were produced.

Türkiye-wide and regional production, domestic and foreign sales data covers factories that are members of Türk Çimento.

9. Incentives

Our Company's incentive information is included in footnote 18 of our CMB report dated 30.06.2024.

10. Development of the Enterprise

The first concrete export by OYAK Çimento Fabrikaları A.Ş., which has started its activities on September 8, 1975, (Former Commercial Title: Mardin Çimento Sanayii ve Tic. A.Ş.) has been made to Middle East countries, in 1975. The company also includes Aslan Cement Branch, which started its operations in Darıca in 1910 as the first factory of the Turkish cement industry and Turkey's first cement brand, and has been serving its region and our country for 114 years. OYAK Çimento is preferred all over Turkey with its strong and reliable image in domestic and international markets.

OYAK Çimento Fabrikaları A.Ş. (Former Title: Mardin Çimento Sanayii ve Tic. A.Ş.) on 13.12.2019, considering the synergy to be created in line with strategic plans and targets in the cement sector, Adana Çimento Sanayii ve Ticaret A.Ş., Aslan Çimento A.Ş., Bolu Çimento Sanayi A.Ş. and Ünye Çimento Sanayi ve Ticaret A.Ş. It was decided to start negotiations with the intention of merging with.

The "Announcement Text" regarding the merger was approved by the Capital Markets Board's decision dated 20/02/2020; It was also submitted to the approval of the partners at the Extraordinary General Assembly held on 27.03.2020. The merger was approved at the extraordinary general assembly. The merger was registered at the Mardin Trade Registry Office on 14.05.2020.

By "taking over" all the assets and liabilities of Oyak Beton Sanayi ve Ticaret A.Ş., a 100% subsidiary of our company, registered with the Ankara Trade Registry Office with the registration number 195300, by applying the "Facilitated Merger" method, our Company Registration procedures regarding its merger were completed at the Ankara Trade Registry Office as of 31/12/2020.

On June 13, 2023, the title of OYAK Çimento A.Ş., the main partner of the Company, was changed to OYAK Denizli Çimento Anonim Şirketi. As of June 19, 2023, OYAK Denizli Çimento A.Ş. Denizli Çimento Sanayii Türk A.Ş., its subsidiary. and OYAK Denizli Çimento A.Ş. through "merger in a simplified procedure". The merger process has been registered.

OYAK Denizli Çimento A.Ş., the main partner of the Company. By evaluating the synergy that will be created by the merger with OYAK Denizli Çimento A.Ş., with its economic and operational advantages, the opportunities that will be created by the size of the Company that will emerge after the merger, and the benefits that it will provide to all shareholders, the Company will be taken over as a whole, together with all its assets and liabilities. An application was made to the Capital Markets Board pursuant to the Board of Directors' Decision dated September 11, 2023 for its merger under the umbrella of the Capital Markets Board, and the application was approved on November 22, 2023. At the Extraordinary General Assembly meeting dated 25 December 2023 regarding the merger, the Company "took over" OYAK Denizli Çimento Anonim Şirketi as a whole with all its assets and liabilities, and the merger within the Company was accepted by the shareholders, and the merger transaction was completed on 28 December 2023. has been registered.

As a result of the merger, Cimpor Global Holdings B.V., which was the 100% shareholder of the former OYAK Denizli Çimento A.Ş. ("CGH") became the main partner of OYAK Çimento Fabrikaları A.Ş. with a share of 75,81%.

OYAK ÇİMENTO FABRİKALARI A.Ş.

BOARD OF DIRECTORS' INTERIM ACTIVITY REPORT PREPARED IN ACCORDANCE WITH COMMUNIQUE NO. II-14.1

On March 6, 2024, between the Ordu Yardımlaşma Kurumu (OYAK) and Taiwan Cement Corporation (TCC), OYAK Çimento Fabrikaları A.Ş. A preliminary memorandum of understanding was signed on 27.11.2023 and binding contracts were signed on 10.12.2023 for the transfer of 20% of the 60% shares indirectly owned by OYAK in the non-public part of the shares to TCC.

Cimpor Global Holdings B.V. before the said share transfer transaction, OYAK Çimento Fabrikaları A.Ş. While it owns 75.81% of the capital, 75.81% of the shares of OYAK Çimento Fabrikaları A.Ş. were transferred to TCC OYAK Amsterdam Holdings B.V. as of March 6, 2024, and 60% of the capital of the transferred company belongs to Taiwan Cement. (Dutch) Holdings B.V.; The remaining 40% belongs to OYAK Capital Investments B.V., a 100% subsidiary of OYAK.

The Mandatory Share Purchase Offer obligation arising within the scope of the share transfer transaction announced to the public on 06.03.2024 was transferred to TCC OYAK Amsterdam Holdings B.V. between 16.07.2024 and 29.07.2024. fulfilled by. Before the Mandatory Takeover Offer, TCC OYAK Amsterdam Holdings B.V. While we had 945.082.998,67 shares of our Company, this figure became 997.896.367,53. Accordingly, TCC OYAK Amsterdam Holdings B.V.'s share in our Company's capital increased from 75,81% to 80,05%.

OYAK Çimento, which continues its activities in a wide area as the capacity and market leader of the Turkish cement industry, is a leading group that develops cement usage areas with the principles of efficiency, creativity and profit orientation and plays an active role in the country's market.

OYAK Çimento Fabrikaları A.Ş. has adopted the vision of being a respected, leading and reliable company that develops cement usage areas and plays an active role in world markets. It works to increase sales volumes both domestically and abroad.

11. Units of the Enterprise

The capacities of the branches and facilities of our Company are summarized in the table below.

PLACES OF ACTIVITY	AREAS OF ACTIVITY OF THE FACILITY	Cement Production Capacity (Ton / Year)	Clinker Production Capacity (Ton / Year)	Grinding Capacity (Ton / Year)	Cement Stocking Capacity (Ton / Year)	Concrete Production Capacity (m3 / year)	Aggregate Production Capacity (Ton / Year)
Adana Cement Branch	Cement-clinker production and sales	3,5 million	3 million				
Iskenderun Facility-I	Cement-Ground Slag and Sale			1 million			
Iskenderun Facility-II	Cement-Ground Slag and Sale			1 million			
Turkish Republic of Northern Cyprus	Stocking and sales				8 thousand		
Bolu Cement Branch	Cement-clinker production and sales	2,5 million	1,4 million				
Ereğli Branch	Cement and Ground Slag and Sale			1 million			
Ankara Branch	Cement-clinker production and sales	1,75 million	1,3 million				

OYAK ÇİMENTO FABRİKALARI A.Ş.

BOARD OF DIRECTORS' INTERIM ACTIVITY REPORT PREPARED IN ACCORDANCE WITH COMMUNIQUE NO. II-14.1

Aslan Cement Branch	Cement-clinker production and sales	3,3 million	1,8 million				
Ünye Cement Branch	Cement-clinker production and sales	2,75 million	1,6 million				
Rize/ Çayeli	Cement Filling and Packaging Facility				21 thousand		
Romania Facility	Cement Filling and Packaging Facility				8 thousand		
Mardin Cement Branch	Cement-clinker production and sales	2,7 million	1,85 million				
Denizli Cement Branch	Cement-clinker production and sales	3 million	1,65 million				
Ready Mixed Concrete Facilities (Mersin, Adana, Hatay, Osmaniye, Gaziantep, Kahramanmaraş, Zonguldak, Kocaeli, , İstanbul, Samsun, Ordu, Rize, İzmir, Aydın, Manisa, Denizli, Antalya, Ankara, Afyon)	Ready Mixed Concrete Production and Sales					12 million	
Aggregate Production Facilities (Ayaş, Çerkeşli, Candere, Akarca)	Aggregate Production Facility						6,8 million

12. Products

The product range of OYAK Çimento Fabrikaları A.Ş. includes the following types of cement. Portland Cement is used in construction projects that require high strength but do not require special attention to hydration heat and sulfate effect. Portland Composite Cement is used in general-purpose construction projects where blended cement is used and which require higher strength. Pozzolan Cement is used in concrete exposed to sea water and groundwater, industrial floors affected by sulfate, mass concrete where low hydration heat is required. Blast Furnace Slag Cement is used in concrete exposed to sea water and groundwater, industrial floors affected by sulfate, general purpose construction, mass concrete where low hydration heat is required. Sulfate-resistant cement types are used in construction projects in areas affected by sulphated fields and sea water, in underwater construction projects, construction projects for bridges, dams and port foundations, in construction projects for retaining walls API Well Cement has been used in oil drilling wells and geothermal power plants with its high sulfate resistance (HSR), strength under high temperature and pressure, and workability. White cement can be used wherever grey cement is used. Their distinctive basic characteristics are that they have white color, aesthetic and decorative properties, and their strength gains are high. Ground Blast Furnace Slag is used as a secondary binder in concrete production.

OYAK Çimento Fabrikaları A.Ş. In its product range, ready-mixed concrete activities include standard concrete production in all classes and types, as well as a wide range of special products, each serving a different purpose and containing developed brand registrations as a result of long R&D studies, with a content and richness that can meet every need.

Marka	Ürün Adı	Açıklama
DURABET®	Concrete with High Durability	It is a special product with high durability that is resistant to severe environmental effects, with low water and chlorine permeability, minimized crack risk, and heat development control.
SMARTBET®	Self-Settling Concrete	It is a self-settling special product designed for building elements with narrow-sections and thick fittings, that may be easily placed and finished.
AQUABET®	Concrete with Reduced Water Permeability	It is a special product with reduced water permeability designed for any environment exposed to water and moisture.
SKYBET®	Concrete Pumped to High Floors	It is a special product with high consistency protection and high strength that can be easily transferred over very long distances in multi-story office and residential buildings, vertically and horizontally.
İZOBET®	Insulating Concrete	It is a special product designed for building elements where heat and sound insulation are needed.
FIBRABET®	Fiber Concrete	It is a special steel and polypropylene fiber reinforced product with high bending and impact resistance, and a reduced risk of premature cracks.
FIBROSHOT®	Fiber Shotcrete	It is a special shotcrete product that is fast, practical and fiber-reinforced, used in manufacturing of tunnel and slope etc.
WHITEBET®	White Concrete	It is a special product manufactured by the use of special white cement and light colored raw materials for construction elements with aesthetic and decorative features.
REPABET®	Micro-fiber Repair Concrete	It is a special fiber reinforced product that settles quickly and that can be used in the repair of factory floor concrete, road, apron and runway concrete subject to heavy traffic, with a low risk of cracks, high early and final strength.

VIABET®	Sliding Formwork Concrete	It is a special product designed in accordance with the working principle of sliding formwork systems in viaduct concretes.
POROZBET®	Permeable Concrete	It is a special product designed for areas such as parks, gardens, parking lots etc., with increased permeability.
DUALBET®	Road Concrete	It is a special road concrete that can be compressed with a cylinder and/or dumped with a paver.
DOZBET®	Dose Concrete	It is a special product designed based on a binding rate determined according to customer demand.
FLEKSBET®	Fixed and Flex Line Concrete	It is a special product designed according to customer demand, which can be conveniently pumped over long distances with fixed or flex hoses.

13. Developments Regarding Sales

While the Company continues its activities by targeting sustainable profitability, new investments are being pursued domestically in 2024. Regarding exports, new sales markets are being explored.

F- Risks and Assessment of the Board of Directors

1. Risk management policy

The Company manages the risks by identifying the risks that may endanger its existence, development and continuation and taking the necessary measures related to the identified risks. In this context, the Company established the Early Risk Detection Committee.

OYAK ÇİMENTO FABRİKALARI A.Ş.

BOARD OF DIRECTORS' INTERIM ACTIVITY REPORT PREPARED IN ACCORDANCE WITH COMMUNIQUE NO. II-14.1

2. Early Risk Detection Committee

The Company established this committee on 25/07/2012 and the committee consists of 2 members. The committee has met routinely from the date of its establishment to the date of the report, for the purpose of early diagnosis of reasons that endanger the existence and development of the Company and the implementation of the necessary measures and remedies for this and risk management, and submitted the reports it has prepared to the Board of Directors. Guidelines of the committee are available at the Company's website www.oyakcimento.com

3. Future Risks

In accordance with our awareness and priorities for social responsibility, our Company monitors future risks in order to maintain its activities in accordance with its goals regarding occupational health and safety, environmental sensitivity, regular optimization of its costs and to offer innovative products to our customers. All factors that may negatively affect our domestic and export sales quantity and prices are monitored.
